## President's Message:

Art Kruegel, BSA President

### Notes from the President:

At the June (2019) meeting, the membership requested that the Executive Board set a date and location for a 'regular' meeting of the Association.

While I did not have complete agreement (due to family obligations) from the board, we here by set the date for a meeting is **OCTOBER 12 at DODGE COUNTY LEDGE PARK.**

The meeting to start at **1 PM, Exact Location** (at the park) **to be announced depending on weather.** The agenda will be available before

the start of the meeting. The main reason for this date and location is that both active chapters are having their final camp out of the year at this location and date. All members of FCRVrs are encouraged to attend and show their support to the Badger State Association. Now on the fun stuff. Its been a great summer for camping. I read the last 'Camping Today' issue and it sure sounded like the National Campvention was well attended and a good time was had. (continued from  
(continued on page 3)

**Celebrate  
& Enjoy  
Labor Day  
Weekend!**

## Notes from the Publisher

Please remember this newsletter is yours and the content is entirely dependent on the submissions from you; the members.

As Publisher, I do not edit the content submitted. Submissions may need to be edited for space. I will try to make every effort that all the important information is contained in the space available.

If you would like a copy of the Badger Banner mailed to you, please complete the subscription form and mail it with your payment to the current BSA Treasurer.

The Badger Banner email is:  
[badgerbanner@gmail.com](mailto:badgerbanner@gmail.com)

The deadline for the next issue is two weeks from the February and June meetings and the 15th of the month for April, August and November issues.

Like past publishers, I will send out the Banner two weeks from the due date for submissions provided members get me articles by the deadline. I will do my best with your help to get the Banner out a month after the last BSA meeting provided I receive articles on time.

**Badger Banner -Voice of the Badger State Association of FCRV**

*Official Publication of the Badger State Association of Family Campers and RVerS*

Send all chapter news, items, columns, special news, and pictures to the Publisher. Deadline is 2 weeks after each BSA meeting. The Badger Banner is published 5 times a year. Opinions, observations and conclusions expressed herein are those of the various authors and do not necessarily reflect those of FCRV or the Badger State Association. Advertising in this publication does not constitute an endorsement by the Badger State Association or FCRV of the product or service advertised.

Members of the Badger State Association are affiliated with the Family Campers and RVerS. 4804 Transit Rd.. Bldg. 2. DePew, NY 14043. Dues are \$35 for one year, \$68 for two years and \$99 for three years. Any FCRV member in good standing, who is a member-at-large in Wisconsin or a member of a chapter in Wisconsin is a member of the Badger State Association.

## President's Message Continued:

Art Kruegel, BSA President

page 1)

There were certainly a lot of activities to keep you busy if you so choose. Although the weather was a little on the warm side, I did not hear anything about any 'bad' weather. I know we had several of our membership attend. On to the Regional Camp out in Illinois the end of July. While we got more than a 'little rain' here in the Milwaukee area on Saturday, (and am not sure of the weather there.) I hope those of the Badger State enjoyed the week of activities. As for those of us that were unable to attend either of the above, I hope you had the chance to enjoy camping closer to home. My family took advantage of the weather and visited two local

State Parks. (Ottawa & Kettle Moraine (north)) in July and August. Bugs were not bad in July, but air traffic control was need to control them in August. Had three of my grandsons camp with us, enjoying swimming, fishing, playing games, bike riding and cooking over the campfire. (They even cooked an evening meal in my cast iron kettle.) The oldest enjoyed a night of sleeping outside in his hammock. While I was unable to join the National/Regional campouts, my family sure enjoyed the great out doors of Wisconsin. I hope all enjoyed camping as much as my family did this summer, wherever they camped.

## State Director's Message

Kip Cushing, Wisconsin State Director

Good Evening everyone time for a word from me, we have had a busy summer traveling. Since I last wrote in June, we have traveled to Hutchinson, Kansas for National Campvention and back home, then down to Watseka, IL for the Great Lakes Regional. We had four couples from Wisconsin at National and we all had a good time. We then had 4 at the Regional Rally. I will try and copy some pictures I took of the Regional Grounds in this report.

This was a late afternoon shot while the sun was setting in the West and I believe we had 30+ units there all states but KY from our region. The Fairgrounds were nice and clean, we had a big building with a stage inside for entertainment, and tables for games, puzzles, and lots of room for beanbag baseball and washer toss competition. As you can see ladder toss was still set up on the left of the picture. We also had corn hole competition as well outside. Thursday many went back up the road to the next county for their fair which had a School Bus Demo

derby, and it was said to be a smash hit!

We found out a little news about our region, we have a new regional director, and she is Connie Black from Illinois. Linda Hennie will be taking over duties as FCRV's National Parliamentarian. Connie is looking for a new State Director seeing Doug does not want to continue in that role. We have also been informed that the Trustees will be running the 2021 National Campvention  
(continued on page 6)

# Chapterter News

## Foxtrotter News

Dahle Enneper

Greetings from the Foxtrotters:

Hope you are all enjoying the rest of your summer it sure did fly by fast. Hope all did more camping than us. Always seem to be busy. Are planning on going to Ledge if all works out. It should be a beautiful weekend without any mosquitoes (hopefully). Stay safe

and have a great rest of your summer and a great fall. Looking forward to seeing all around the campfire soon.

## WISCOWS MOO NEWS

Trisha Chartier

Because of Jan & Kip Cushing efforts at the camper show this year we picked up a couple new members. At our May campout we weren't sure who everyone was so are encouraging everyone to wear their WI-COW name tags all of the time at our campouts. We even came up with a cute new look for the name tags! It's also a nice subtle way of letting other campers know we are part of a group. It can be a great way to open up a conversation and spread the word that we are a part of a group and they might just ask us more about our club and hopefully pick up even more new members.

Jan & Kip told us how years ago we had a corral and every member brought a cow related item to put in the corral. What a great way to start a conversation. I am so exciting we have ask them to bring back the corral so look for that coming very soon.

I am all about marketing as a way to find new members. So we are looking into ordering Jackets to wear at campouts or around town so that again campers can

ask about our group and come check us out.

We had Diane & Tom come to the get acquainted campout in May Tom is now semi retired and they just purchased their first campers. They want to be camping every other week which isn't a bad idea as our summers are so short and not every weekend works for everyone. So if we have more choices maybe we can find more campers to join us if there are more options for camping in the area during the summer.

If you want to be on our email list let me know so you will know what's going on for the weekend!!

Tricia Chartier  
President of WISCOW

## Disaster Awareness & Safety Awareness Training (DASAT)

By Art Kruegel

Before I open a topic, I want to encourage all to read the DASAT article in the August **Camping Today**. Joe really did a great job doing a lot of research on bicycle safety. Please take some time to read it.

Fall is a great time to just “walk the trails”. Just walking through the woods, marshes and taking your time, looking for wildlife, leaf color and just enjoying your self. A few years back, we took our grandsons to Bong Recreation Area the last weekend in October. Had good weather, fishing not so good, (if it ever is?) but good bike/hiking weather. Saw a few hunters walking the trails, (in blaze orange) hunting for whatever. (as you may know, I am NOT a hunter.) After telling & showing our grandsons about what ‘blaze orange’ meant, I made sure to tell them to stay on hiking/biking trails far enough away from the hunters. They understood, and actually enjoyed watching the hunters move through the ‘hunting’ area. I would guess by now that I am talking about hunter safety. No, I am not an expert or trained in hunting safety. But I do know enough to stay away from hunting areas during the season.

I just used ‘Google’ to find the ‘range’ of a 12 gauge shotgun. (I think the 12 gauge is used for small game.) To my surprise, I found that the range was between 45 and 100 yards, depending mostly on the ‘load’. (How many B/B’s, and or using slugs’. ) A 20 gauge, (the next size smaller shot gun) has about the same range, 40-50 yards using ‘bird shot’. The 410 gauge is less powerful, and has a tighter pattern.

Now, before the ‘hunters’ get excited that I am giving the wrong information, (or trying to scare anyone,) I just used ‘Google’ to get my information as to range of the shotguns that I think are usually used in bird hunting. I was just looking to find how far a shotgun would carry, i.e. how far to stay away from a hunter. From what I found, 100 yards, (the length of a football field) is **NOT enough distance**. What I am really saying is to be aware of where you are enjoying a walk. Look for **‘blaze orange’**, wear **‘blaze orange’** and make sure you keep your distance from known hunting areas.

Enjoy fall camping. It is always a good time to enjoy the outdoors. Just be safe and respect others that are enjoying the season.

## **STATE DIRECTOR'S MESSAGE (Continued)**

Kip Cushing, Wisconsin State Director

(continued from page 3)

and trying to implement the ideas from the survey that went out to all members, on what they felt could be done different at a National Campvention. At this year's National Campvention a whole day was devoted to discuss and come up with items that would make coming to a FCRV National Campvention a "want to do list" for all members. So with all those interesting facts and requests and interest posted at the meeting, they will use that as guide for future National Rallies.

To keep with two of those items "centralize" and "new Locations" they are planning to hold the 2021 National Campvention in Wisconsin. The campvention co-coordinator toured the Walworth county fairgrounds in Elkhorn, and deemed it fit for a National Rally. I know the Trustee's are in charge of this and they are still in the very early stages of getting it off the ground and running. So that is all I will say about it at this time. We discussed it at our meeting of State Directors in Watseka and will be covering more in November at the meeting we have in Fort Wayne. Which this year will be the first weekend in November so if the entertainment committee plans something please keep that date in mind in setting up an activity so that we can attend. I'm sure it will be discussed more at the meeting at Ledge Park in October.

I turned around with this picture from Regional. For those who could have made this one, it was close and beautiful and you missed a very fine time.

If you liked my articles and pictures I did for the April Banner when we came back from the retiree rally, I plan on doing some for this banner. I just have to remember how to resize them and get them fitted in the article properly. I did learn why you do not travel on a long trip on or over the 4<sup>th</sup> of July. If you recall I had a spring failure on the way to Doswell, VA last year over the 4<sup>th</sup> week-end where everyone was closed except a FCRV member. Well, 363 days later, going the opposite direction, the same busted spring event while clipping along thru Kansas City on I-35 southbound on the 4<sup>th</sup> of July stopped us. Yep, I was truly scr\_\_\_d, now it was a Thursday and even AAA said things were closed. No RV dealers I called in Kansas City zip code area were even open. AAA was going to send a tow truck. Well a Kansas Highway Patrolman pulled up behind me and said I was in luck. If I could pull up the road till the next exit he'd follow, take a right at the stop sign and take another right at the first street and go to the back parking lot and sit and wait on my help. I was by the Highway Patrol HQ and inspection station in Kansas City, and they came in the rest of the day and night fueling up so they would keep an eye on us.

Well to make it shorter, the driver in the wrecker called AAA and told them they needed to send a mobile repair unit and I could not be towed or moved in any manner he had available to him. He gave me a name of a company to try if AAA failed me. They did!

I finally got back on the road at 5 PM on the

(continued on page 7)

## STATE DIRECTOR'S MESSAGE (continued)

Kip Cushing, Wisconsin State Director

(continued from page 6)

5<sup>th</sup> of July, getting to National in Hutchinson after 9 PM, with no help from AAA. Thanks to Chuck (the wrecker driver), then John, and Frank at Interstate Mobile Repair, a nationwide company who found two springs for the trailer and picked them up on the way to help me on Friday. Watched fireworks in 3 directions from where we were parked that night of the 4<sup>th</sup> of July in the HP parking lot. Oh, no electric or water, another reason to put water in your tank before leaving home and keeping your battery up to snuff and LP tanks topped off. We were allowed in to charge up our phones. Friday morning, yes it was in the 80's I believe.

FYI as of this month we have 28 members in Wisconsin of which a dozen seem to be active campers. If you have a camper we would sure like to see you join the ranks of active campers here in Wisconsin. Horst and JoAnn we hope you are out of your motor home and back in your refurbished home after your water damage episode this spring. We hope none of our members suffered any damage, with those tornado's we had go through the state, or from all the water we had this spring. Nice to hear the Whites had a very nice Cruise. There is lots of time for more camping and I hope to see you at the remaining campouts. See list elsewhere in banner.

Keep on Camping and Come Camp with Us

Two more from Regionals.

This was the building where all the activities took place and the Murder Mystery Dinner.

## Another Group of Campgrounds You May Enjoy on Your Travels

By Kip Cushing

### Wallace State Park near Cameron, Mo

We found this nice State Park north of Kansas City off I-35 and it was quite nice. It was not full, with a number of sites that did not have reservation tags on them. (And some were real nice.) The park is on Lake Allaman shores and you can see water all around. The lake had just receded and the spots along the lake were still empty while we were there. We were parked in this circle, all sites were fairly level, believe I went up on a 2x one side to level. We had electric and water, and no problem making reservations online.

This was our second night on the road, I forgot to take pictures of the Corp Park we stayed at the first night called Sugar Bottom on the shores of Coralville Lake in Iowa. I broke the trip into 3 days of 260 + or – miles per day, to get to Hutchinson, KS. We were on site 072 loop 4 there and it was nice but there were better ones! It was close to Herbert Hoovers Presidential Library so we may go back and camp there again. Getting there, we angled down Hwy 173 to Hwy 20 to I-39 S to Hwy 30 W to I-88 (missed toll) W to I-80 W to Hwy 1 and followed the signs. Leaving the Corp Park it was I-80 W to I-35 and signs to State Park.

Wallace State Park was clean, the sites were spaced out nicely. We were not on top of anyone and I did not need to unhook to level, but I could take the weight off the rear of the truck. I will add another photo or two of the campgrounds at the end of this paragraph. Leaving we got back on I-35 S to Hwy 50. (continued on page 9)

### **NEWS FLASH!!!**

The **2021 National Campvention** is being hosted by the Trustees (current, past and future). It will be held at the Walworth County Fairgrounds in **Elkhorn, Wisconsin**.

It is in the very early planning stages. The Trustees will need help from its members. If you would be willing to help, please contact any of the current trustees.

## Wallace State Park near Cameron, MO (continued)

To Hwy 150 W to Hwy 56 W to Hwy 61 S into Hutchinson, we spent July 4th in the Kansas Highway Patrol HQ and inspection parking lot in Kansas City. (Exit 232B). No hookups, glad I carry water in tank and battery was up to charge, and we ran truck to charge up cell phone after I called all over for help.( that's another story)

## Streeter Park Campgrounds in Aurora, NE

Out of Hutch, we took Hwy 61 north to Hwy 81 and north all the way to I-80 then west to Hwy 14, north again to Aurora, a good route.

I was looking for a campground while in Hutchinson where we could go and just relax for a couple days. Everyone was either going east and back home, or west to do the tour thing with Barb and Jim Turner. So I looked north in the direction of Grand Island, NE  
(continued on page 10)

## Streeter Park Campgrounds in Aurora, NE (continued)

(continued from page 9)

where we have camping friends we have not seen for some years. I also look for an attraction if I am going to stop and unhook. Well I found this wonderful City park in Aurora, NE and it had free WiFi and 20-30-50 amp service (so we could have AC) but, it was FREE. So we headed north and had little or no traffic traveling state highways, and one or two potholes. It was quite a difference than I-35 or I-80 on our way to Hutchinson. They had plenty, enough to break one of my springs on the trailer.

We arrived in town and passed the attraction I was looking for “Plainsman Museum & Edgerton Explorit Center” on Saturday just blocks away from the campground. Matter of fact the town square was just 3 blocks away plus one and you were at Pizza Hut. Well, I unhooked and because it did not take us all day to get there, I went to the Museum. Beautiful and very interesting but they were closing at 4 and I could not stop and read many of the write-ups at the various displays. I will show you one of the many Murals inside and a couple other shots I selected. (I took 26 pictures for these articles to choose from when I got back home). Oh, at the opposite end I was parked at was the city pool, where there were showers for campers to use. One side of the main road (above left) on grass was tent's, the other side motor homes and trailers. There is a 4 day limited stay period and donations to keep the grounds up were appreciated.

Here are some pictures from inside the Museum of the collections and a Home Rebuilt Inside the Museum.

## Streeter Park Campgrounds in Aurora, NE (continued)

One of many Mural's painted in the museum is a Stage stop just outside of town on a local ranch. Our next stop was outside of Ames, Iowa near a little town of Jewell. Leaving we took Hwy 14 northward to Hwy 30 northeast to Ames and our next stop Little Wall Lake County Park.

## Little Wall Lake County Park - Jewell, Iowa

## Little Wall Lake County Park - Jewell, Iowa (continued)

FYI- we took Hwy 14 out of Aurora to Hwy 30 all the way to Ames then north on I-35 till we cut over to Hwy 69 and the Park. This was the best county park we have come across so far in our journeys across the states. Free Wi-Fi! It also has full hook up sites and water and electric sites, nice shower facilities and some back in sites right along the lake that just are for those who want to watch the ski boats and jet ski's racing around the lake. It was blowing off the lake so we stayed one row back and were plenty cool, so the windows were open. It has 20-30-50 Amp sites with water, and as you can see you are not too crowded. The orange sites on the map were full hookups and the rest behind them were water and electric. It was just beautiful, you had to self register \$25 Full hookup, \$22 for W&E, and \$12 primitive sites and as you will see on the last couple pictures, not really crowded after the weekend. I believe we stayed there just one night. We were off Hwy 69 and miles from I-35 to the east. Then going home, we took 69 northbound to State Hwy 20 and took that all the way to Rockford, IL then a jog on a county road up to Hwy 173. The Galena area was attractive and the roads were crooked at first, then they straightened out. I enjoyed all the roads I drove on coming home, there were some I had not driven on before, and some I had noted as good in my atlas. If anyone comes east to Elkhorn in 2021, that was a good route and you would see some pretty scenery. Here are a couple more pictures that may interest you.

Hope you enjoy my articles. I am having fun taking pictures and writing them up in hopes you may someday visit one or two of them in your travels. Kip
