We have so much to be grateful for this year, including all the times we have had to be together at a full slate of campouts. After a long time of isolation during the pandemic, how sweet has it been to share a meal, engage in conversation, and sit around a campfire together again! To bring back memories of these times together, just click on the links attached to the pictures...

From the State Director

Angie Shaneyfelt

Well, we have one more campout planned the end of October at Cedar Point, then it's time to winterize the camper. Hopefully many of you got in some fall camping before putting your units to bed for the winter.

Make sure you get your calendars marked for the state campouts next year so you don't miss any. All of the campouts are planned with location and date (s), some you have to wait until they get closer to make your reservation. Just typing that, I need to contact Cornerstone regarding making my reservation for the summer campout August 19-21.

We won't be able to attend the spring campout in at Friends O' Mine Campground as Ed and I have other travel commitments. I am really upset that we can't make that one as the Happy Glampers sound like they are going to have a great campout!

Also, when setting up your calendars, make sure you are including Retiree Rally (in Texas) and Campvention (in Colorado). You can find more information about these events at www.fcrv.org.

I'm adding this last sentence (and I said this last month). If your clubs are getting together over the winter months to meet and/or eat, please let me know and if I'm available I would love to come and visit. Not even clubs, if you're just going out to eat, give me or Ed a call and we'll see if we're available to visit with you!

Hope you had a Happy Halloween and wishing you and your family a very Happy Thanksgiving.

Angie Shaneyfelt

From the State President

Ed Shaneyfelt

Happy Halloween, which means right around the corner it will be time to winterize our units or get ready to head south if you are a snowbird.

When you're having your club meetings for next year make sure to include the state campouts in your schedule. Look elsewhere for the schedule.

Don't forget that if you want to run for an office to get ahold of Mark Shaneyfelt to let him know that you are interested in running.

We lost three members from the organization so we need to keep their families in our thoughts and prayers. Sharon Shaneyfelt lost her mom, Larry Roop lost Vickie his wife and an icon for the organization, and Harlan Nigh lost his wife Bernice. Look for the obituaries elsewhere in the chatter.

Thanksgiving is later this month so be grateful with the ones you gather with and enjoy all the good food that comes with it

Until next time
Ed Shaneyfelt

It is time again to select those who will lead us through the next 3 years as Officers of the Indiana Association of Family Campers and RVers.

If you could consider yourself in a position that helps to shape the future of this organization, please contact Mark Shaneyfelt, nomination chairman at m.sshaneyfelt@yahoo.com.

Feel free to contact any of the current officers to get information about the duties of their job. Indiana FCRV needs YOU!!

Hello Fall!

That cold snap last week was a rude reminder that camping season is wrapping up and campers need to be tucked in for winter.

I hope everyone had a wonderful summer, enjoying their time together with our camping family. I know it seemed so much sweeter this year after 2020! 2022 is already in the planning so make sure to mark your calendar to join all our events. The more people that join us is more fun we have!

Happy Halloween and Thanksgiving!!

Misty

By Harlan Nigh

Hello Camp Family,

As we closed the season in October, sadness is in my heart. My wife Bernice "Angel" Nigh went to join the Lord's Kingdom on October 12th at 2:02 P.M. That's the part I can Rejoice in. Her obituary can be found in Freeman Funeral Home Shelbyville IN or <https://shelbycountypost.com/obituaries>

Vickie Roop joined my Angel on October 13. Her obituary can be found on <https://www.dignitymemorial.com/obituaries/fort-wayne-in/vickie-roop10402369>

And last but not least, Roger Descoteaux of South Carolina. His obituary can be found on <https://www.legacy.com/us/obituaries/indexjournal/name/roger-descoteaux-obituary?id=31131399>

May we offer prayer for the families as they mourn the lost of love ones. But Rejoice the Lord as His Kingdom is broadening.

With this I wish y'all a Happy Thanksgiving and my we continue to look forward to the New season on the horizon. 🙏🙏🙏

Thank you to all for making Bernice's camping trips so much fun.

Till we enjoy the Campfires again, God Bless and Peace be with Y'all. Amen. 🙏🙏🙏🙏

DASAT MOMENT

by Marilyn Rausch

Carbon monoxide: an unseen threat!

Carbon monoxide (CO) poisoning is a year round threat, however as temperatures drop, the potential for CO poisonings rise.

CO is a highly poisonous gas produced by burning fuels such as gasoline, natural gas, propane, kerosene, charcoal, and wood. CO from these sources can build up in enclosed or partially enclosed spaces. Unlike natural gas or propane, CO has no distinct odor, so it can be present in high quantities without detection.

The risk of illness or death increases with the level of CO in the air and the amount of time exposed. Dangerous CO levels can result when home appliances are not properly maintained or when used incorrectly.

Symptoms of CO poisoning are similar to those of the flu, food poisoning, or other illnesses, including intoxication.

The common signs and symptoms include headache, nausea, weakness, abdominal discomfort/pain, dizziness, and confusion. Other signs and symptoms may include blurred vision, numbness and tingling, ataxia (loss or lack of muscular coordination), irritability, agitation, chest pain, shortness of breath, palpitations, seizures, and loss of consciousness.

Anyone who suspects symptoms of CO poisoning should go outside the home or building without delay and seek prompt medical attention. If a person has collapsed or is not breathing, call 911 for emergency medical assistance immediately from a safer location such as outside or from a neighbor's home. Children, pregnant women, and individuals with heart conditions are most vulnerable.

Tips to help prevent CO poisoning:

- * Never use a gas stove or oven to heat the home.
- * Never burn charcoal inside a house, garage, vehicle, or tent, including in a fireplace.
- * Avoid using unvented gas, propane, or kerosene

heaters in enclosed spaces, especially sleeping areas.

- * Install and use fuel-burning appliances according to manufacturer instructions,
- * Inspect the exhaust system of each fuel burning appliance every year, including chimneys, flues, and vents. Check for blockage, holes, and disconnections.
- * Have fuel-burning appliances inspected and serviced annually by a licensed contractor.
- * Never leave an automobile running in a garage, even with the garage door open.
- * Do not leave the rear window or tailgate of a vehicle open while driving. CO from the exhaust can be pulled inside the car, van, or camper.
- * Never use a portable generator or a fuel-powered tool indoors or in other enclosed or partially enclosed areas.
- * Always place portable generators outdoors on a dry surface far away from doors, windows, vents, and air conditioning equipment that could allow CO to enter. Orient the generator so that it is placed with the exhaust port pointing away from the home.
- * Install battery operated CO alarms or plug-in CO alarms with battery backup inside a house according to manufacturer's installation instructions or NFPA (National Fire Protection Association) 720: Standard for the Installation of Carbon Monoxide (CO) Detection and Warning Equipment.

Install only CO alarms that meet the UL (Underwriter Laboratories) 2034 or the CSA (Canadian Standards Association) 6.19 standards.

Replace CO alarm batteries once a year and test alarms frequently.

Replace CO alarms every five years or as often as recommended by the alarm manufacturer.

Happy Thanksgiving!
