Newsletter Information

Thank you to all who contributed to this newsletter. There is always room for more information. The deadlines for contributions to the newsletter will be March 1, June 1, August 1 and December 1. A request for articles will be sent out approximately 2 weeks prior to the deadline and again about 2 days prior to the deadline. Requests for Christmas ads will be sent in early November to allow plenty of time for receipt of your ad and payment. Each chapter is asked to contribute articles but

anyone is welcome to contribute. Don't think you have to be a great reporter - just send the information and it will be reformatted for you.

Next Newsletter Deadline June 1, 2026

MSCA FALL CAMPOUT BOD MEETING - SEPT 19-21, 2025

Present were members of Pitch 'N' Pull, Slow Travelers, & Gateway. Pak 'N' Go was not represented.

10 family's attended.

President Linda Van de Riet called the meeting to order.

Chaplain Beth Standiford gave the invocation.

All recited the Pledge Of Allegiance.

Kathy Tannehill read the minutes of the previous (May 2025) meeting. Paul Standiford made, and Don Toliver seconded the motion to accept them as read. Motion passed.

Don Hopkins gave the Treasurer's report:

Starting balance:	\$5,228.05
Raffle income	90.00
2nd VP expenses	(76.70)
Newsletter expenses	(40.17)
New balance	\$5,201.18

The Treasurer is currently collecting dues. Paul Standiford made, and Don Toliver seconded the motion to accept the report. Motion passed.

President Linda Van de Riet reported that camping was good this year and that we still need to be diligent about recruiting new members. The St. Charles RV show in 2026 will be right after Labor Day and we should look into participating. Paul Standiford recommended a "get acquainted" campout rather than a meeting the way Wis-Cow Campers of Wisconsin do as they have had good success with that.

2nd VP's Jerry & Kathy Tannehill encouraged all to come for dinner tonight (Sat 09-20) at 6 pm for BBQ pork steaks and Card Bingo at 7 pm. Bring a wrapped gift and a side dish to share.

Chaplain Beth Standiford invited all to a very short devotion on Sunday morning at 9 am and is starting a prayer chain. If you are interested in participating, please send her your e-mail address.

Old Business

Changes to Constitution and By-Laws were passed.

New Business

Spring MSCA campout will be at Arrowhead, Osceola, MO

Campvention 2026 will be July 5-11 at the South Dakota Fairgrounds

Paul Standiford moved to adjourn and immediately reconvene as the Membership meeting, Don Toliver seconded and all agreed to pass the motion.

Respectfully, submitted,
Beth Standiford,
Secretary Pro Tem

MSCA Fall Campout Membership Meeting Sept 19-21, 2025

Meeting was called to order by President Linda Van de Riet.

Paul Standiford moved to dispense with all previous reports and move directly to New Business. Seconded by Dave Gish and motion passed.

New Business

Moving the Spring campout to Arrowhead, 755 SW Highway 54, Osceola, MO 64776 (417-876-3016) because the usual meeting places on the west side of the state (Big Red Barn and Coachlight RV Park) are charging too much for the use of their club house. At Arrowhead, the room is free as long as 8 units camp there.

Fall campout will again be held at Lazy Day, Sept 25-27, 2026, as motion was made by Paul Standiford and seconded by Don Hopkins, all agreed.

Election of officers was held:

3 calls for nominations from the floor were requested for each office:

Treasurer - Don Hopkins (moved by Beth Standiford and seconded by Dave Gish)

1st VP - Paul Standiford (moved by Kathy Tannehill and seconded by Leslie Ploeger)

Secretary (1 year to fill vacancy) - Beth Standiford (moved by Don Hopkins and seconded by Linda White)

Don Hopkins shared his new address: 2140 TELFORD RD, ST. LOUIS, MO 63125)

Kathy Tannehill reported changes on Highway 70 for travelers to watch out for.

Paul Standiford invited all to attend the Pitch 'N' Pull campout in October at Cooks RV in Springfield.

Slow Travelers will meet at 2PM

Paul Standiford was assigned the task of developing language to change the Constitution and By-Laws to combine the Board of Directors and Membership into one meeting with an Executive Board of Directors session. Beth Standiford made the motion to do so and Mike Van de Riet seconded. Motion passed.

Kathy Tannehill made a motion to adjourn and was seconded by Paul Standiford. Motion passed.

Respectfully submitted,
Beth Standiford
Secretary Pro Tem

1st Vice President

By Paul Standiford

In the Winter 2025 Missouri Camper I asked all of you to consider submitting an article. I even gave some suggestions on what you could write about. Unfortunately we apparently don't have many aspiring writers in the group. So, I'm asking again. Please help me out. I send reminders to the MSCA officers and chapter officers and a few others that have contributed in the past but I don't send emails to the entire MSCA roster. Maybe I should do that as a reminder. But I don't want to spam you if you are simply not interested. So, if you are interested in participating in the newsletter please send me an email and tell me to add you to the reminder list. The email address to use is missouricampernewsletter@mofcrv.org. Your help would be greatly appreciated.

One more thing on my mind. About two years ago, Beth and I started the task of scanning all of the available MSCA minutes. They go all the way back to 1963. Finally, Beth completed the last of them. Then, I found a bunch of old Missouri Camper newsletters. I have scanned all of those. Both the minutes and newsletters are in PDF format and are OCR compatible. (OCR means you can search them.) All that being said, the time it would take to upload all this to Facebook is tremendous and not something I want to undertake. So, I want to make these available to anyone who would like to have a copy. Simply let me know and I will transfer them onto a USB drive. I can get the USB drive for about \$7 for one but the more I order the less they cost. Let me know if you want one and I will purchase the USB drive and get it to you either at a campout or via USPS.

I have come across quite a few additional Missouri Camper newsletters. However, they are actually more like newspapers. To scan these I would need access to a 11" x 17" scanner. Do any of you have access to a scanner this large? If so, send me an email with the details.

Give some thought to attending the Retiree Rally in Mineola TX. It is a lot of fun. We went to our first one in 2018 and have not missed one since. (Except the one that was canceled due to Covid.) I've been watching the posts on Facebook and it looks like the committee is doing a GREAT job. There will be a variety of vendors there - including tank cleaning, RV washing and possibly RV weighing. And remember, you don't have to be retired to attend. Take a look at the Facebook page and the Retiree Rally pages on fcrv.org. Links below.

2nd Vice President - Spring 2026

By Kathy & Jerry Tannehill

I am so glad I saw my shadow on my birthday (February 2nd) and the weather has turned nice for a bit. I'm sure you all are ready by now for the 2026 Camping Season to get started. I have had enough snow already this year. Jerry has been busy getting the exterior of our old 5th Wheel RV ready for our first road trip that is coming up in March. My job of course is prepping the interior to make sure everything is set, washed, cleaned, and ready to go. For our first campout we will be joining our friends in the Slow Travelers Group. We all are heading to Mineola, Texas on March 18th for the 2026 Retirement Rally, then off to Gulf Shores for two weeks for some good food and warm sunshine. Ahh... I can't wait.

In the middle of all of this, and by the time you all are reading this letter, I have flown to Delaware on the last day of February for two weeks to spend a little time with my mom. She is turning the sweet golden age of 88 on her birthday March 15th. Hopefully there will be no more big snowstorms on the east coast so I can fly back home the next day in time for the Mineola trip. And also... Jerry and I are excited to go on an eight-day cruise we planned for mid-April. We are going to cruise with a buddy from our Navy days, his wife and friends and enjoy the exclusive Cajun Music Bands that are planned for the trip. We are catching the ship out of Galveston Texas to cruise thru the Florida Keys then to the Bahamas. Boy times are getting busy really fast.

We have also been trying to finalize our camping reservations for 2026 and putting some thought into our upcoming MSCA Spring Campout this year. It is being held at Arrowhead Point RV Park in Osceola, Missouri on Friday, May 1st through Sunday, May 3rd. The address is 755 US-54, Osceola, MO 64776. If you haven't made your reservation yet, then call them at (417) 876-3016. Check-in is at 1pm, with all of the sites being fairly level, pull thru with full hook ups and 30/50-amp service. Somehow, I will be starting to work on our program for the weekend between now and the end of April. I'm thinking on Friday night we will have our normal potluck dinner, followed by sitting around the campfire sharing our latest stories. On Saturday there will be breakfast served by the Gateway Campers and a craft project planned for those interested. MSCA (Jerry) will be making some sort of meat dish for our Saturday evening meal, so bring along your favorite dish to share. I haven't figured out the rest yet, so I have more work to do. Jerry and I have never been to Arrowhead Point RV Park, so we are asking for a little help. If you have camped there before or know that area, please contact us if you have any suggestions or ideas for things to do or see. So meanwhile, Safe Travels to you All until we meet again.

MSCA 2nd Vice Presidents,

Kathy and Jerry Tannehill

Sunshine and Southern Highways: An Epic 2026 RV Adventure

By Karen Kremer

@journeyadventuresdiscovered

From Mineola, Texas to Gulf Shores, AL— a journey of community, coastlines & camaraderie

📍 Start: Mineola, Texas — Retiree Rally (March 20–29, 2026)

Spring kicks off in East Texas at the annual National Family Campers & RVers (FCRV) Retiree Rally, held at Mineola Civic Center & RV Park in Mineola, TX. This long-running gathering brings RVers of all ages together for social events, nightly entertainment, shared meals, and rallies designed for retirees yet welcoming to all. The Civic Center RV Park offers full hookups and social spaces that make this an ideal launch point for your spring journey.

Retiree Rally highlights:

- Evening socials & entertainment
- Workshops & fellowship events
- Full-hookup RV campsites with community amenities

From Mineola our traveling buddies, The Slow Travelers, will head south/east towards the Gulf Coast aiming for Gulf Shores, Alabama. This will be Mike and my second time here and can't wait for the food and camaraderie!

Final Thoughts: A Spring to Remember

This 2026 journey blends rally culture — from retiree meetups in rural Texas to sun-splashed beaches on the Atlantic — with rich southern landscapes, cultural festivals, and seaside serenity. RVers will be heading into their prime travel season now.

Safe travels, and may your engine hum as smoothly as the ocean breeze!

Happy Trails!

Karen

Gateway Campers

by Jan Hopkins

The Gateway Campers are eagerly anticipating the start of the 2026 season following a wonderful conclusion to our 2025 outings.

In August we went to Chatham, IL, and stayed at Double J campground. It was, as expected, hot and humid. So we made the theme of the weekend: Air conditioning.

Friday started rough for one camper, but ended well, and reminded all of us of the benefits of camping with friends. The front driver's side leveling jack on Don's rig broke while he was setting up camp. Don was prepared with a spare jack, and the help he got from the other guys to make the repair was much appreciated.

Saturday, we toured the (Air Conditioned) Illinois State Museum! This museum has an extensive walk through exhibit on natural history, as well as an art exhibit on the upper floor.

Following our education, we refreshed ourselves at the (air conditioned) D'Arcy's Pint. Many of us had the locally renowned 'horseshoe' for dinner. For those who aren't aware, a 'horseshoe' is your choice of meat on a bed of Texas Toast, piled high with fries and then smothered with cheese sauce. Someone referred to it as a 'heart attack on a plate:' it was definitely an experience.

Later that evening, it was still ridiculously hot and humid. We were graciously invited into Larry and Betty's (extremely air conditioned) rig, which was large enough to accommodate us, for drinks and dessert. No heat and humidity will ever keep our group from a good time!

In September, we traveled to Coon Creek Recreation Area, in Shelbyville, IL, which features some easy hiking paths to the lake. We spent Saturday visiting Arthur, IL. The Arthur area is home to the largest and oldest Amish community in Illinois, which was founded in the 1860s. We visited a pumpkin farm, an Amish store, and of course, found a fantastic restaurant! Yoder's Kitchen offered both a menu and a buffet, and served up made-from-scratch traditional dishes.

After the September camp, many of our Gateway group winterized and began planning for the 2026 season.

In January we met for our traditional After-Christmas Christmas party. December tends to be busy for many people, so we gather in January when we can relax and enjoy our time together! This year, we met at Coopers Hawk Winery and Restaurant, for a fabulous banquet. In addition to our personal waiter in our reserved room serving delicious food, we had a great time visiting, and played a new game for our gift exchange. During the game, each person had an opportunity to tell the group about their favorite camp trip. It was fun to hear and remember the places we'd been, and to plan the new trips.

Our first official Gateway camp weekend this year will be at Babler State Park, located in Saint Louis county. It'll be a good place to kick off the season, with easy access to camp and hardware stores for the inevitable things we'll all need to get the new season going!

Slow Travelers Updates

By Frances Jackson

As we head into spring several Slow Travelers are loading their campers in preparation for a trip to Mineola, Texas for the FCRV Retiree Rally. The Rally will be held at the Mineola Civic Center. It is a great place to catch up with old friends and meet new ones who traveled from across the country to enjoy the many fun activities scheduled for the rally as well as exploring the area around Mineola.

Upon leaving Mineola many Slow Travelers will continue south to Gulf Shores, Alabama. Gulf State Park is a great place to cycle or take walks. Campsites are very close to the trails in the park. Area attractions, the Gulf Shore Beaches, and restaurants with lots of fresh seafood will be enjoyed while in the area.

In May Missouri State Camping Association's Spring Campvention will be held in Osceola, Missouri. As well as taking care of MSCA business we will enjoy activities planned for the Campvention as well as places of interest in the area. It will be good to catch up with members throughout the state. Upon leaving Osceola,

Slow Travelers will travel to Wichita, Kansas for their last scheduled campout this spring. There appears to be many interesting places to go and things to see in the area. We are looking forward to exploring Wichita. Regardless of the location Slow Traveler's camp one thing is certain. We will enjoy each other's camaraderie as we take part in planned activities, as well as when setting in a circle at a campsite or visiting around the campfire. That connection with members of the organization is what makes each campout a special time. See the total 2026 camping schedule elsewhere in this newsletter to get more information about all the upcoming campouts.

Frances Jackson
Slow Travelers Secretary

Mineola, here we come!!

First Campout of the Year - Smithville MO

by Beth Standiford

Pitch 'N' Pull, June 2-7, 2026, Smith's Fork Campground

All of PNP wish to invite you for a leisurely campout at Smith's Fork Campground, Smithville, MO. Hosts will provide supper on June 2 (menu TBD, but it will be tasty) to make camping life easier for those attending. While it's expected to be a quiet week, for those who are interested in history, just 20 minutes away is the Shoal Creek Living History Museum. See what living near Kansas City was like between 1807 and 1885 with 13 authentic buildings. The 80-acre grounds are open daily at no charge, and the buildings themselves open during special events (see website for details). If wine is your idea of relaxing, the Ladoga Ridge Winery is just minutes away. Perhaps your taste runs to their seasonal selections of Chokecherry Kiss, Watermelon, or Strawberry Rhubarb (available until sold out), or to the more traditional whites and reds, they will be more than happy to accommodate you. And if you just want to give your camping chair a good workout for the week, we would love to help you with that as well. One more perk of camping with Pitch 'N' Pull is the breakfast provided the last morning, so don't be in a rush to leave us. Kick back, enjoy a quiet (almost) week with us. Just let us know you're coming! Send an email to pitch.n.pull@mofcrv.org or contact one of the Pitch 'N' Pull members at MSCA campvention and we will give you all the information.

Recently I saw an item on Facebook that required a little more investigation. It stated that a campfire emits red rays through thermal radiation and that the red and infrared light emitted by a campfire can penetrate cells to boost ATP (Cellular energy) and trigger a calming, soothing effect on the nervous system. These rays are unlike the UV rays from the sun, providing a non-ionizing and safe, warm comforting experience. A campfire will provide a natural, full-spectrum light, including red and near-infrared light which is similar to modern therapy, although less targeted. Campfires have been shown to offer reduced stress and blood pressure levels, lower heart rate, and reduce anxiety as well as allowing the mind to rest.

No wonder campers have long enjoyed the benefits of a campfire! Here's to your health and I'll see you 'round the campfire!

Feed My Sheep

By Beth Standiford (MSCA Chaplain)

What is Seen and Unseen

Geodes: A bit like us, actually. Not all exactly the same size or shape. Some may be the same size, but different weights. Some are a little muddy or dirty or rough on the outside. But the most amazing thing about how they are like us, is that only God has seen what is on the inside, where our true beauty lies. We work at relationships based on what we can see, so that we may get to know what the other one is like on the inside. We may form ideas of what is in there, and always hoping to find the best in another, also hope they find the best in us. There may be clues to what's inside based on where they were found, but again, only ideas and hopes. **I Peter 3:4, "Rather, it should be that of your inner self, the unfading beauty of a gentle and quiet spirit, which is of great worth in God's sight."**

Oysters: I don't know who the first person was who looked at an oyster, worked to open it and said, "Oh yeah, this looks good to eat" but they were wrong. It does NOT look "good". However, the occasional oyster will contain a hidden gem – a pearl. The oyster gets something stuck in it such as a grain of sand or other irritant and may spend the next several years of constantly coating it with a substance they make and turn that into a pearl. Ever wish you could take what irritated you and turn it into a pearl? Perhaps that's what God does when we take our irritations to Him. By constantly covering our irritant in prayer, God may not change them, but it will certainly change us!

Romans 12:2 And do not be conformed to this world, but be transformed by the renewing of your mind, so that you may prove what the will of God is, that which is good and acceptable and perfect.

Trees: God does a marvelous job with trees. In the Winter, they are bare and dead-looking. But there is so much going on under the surface! They are quietly, consistently growing. What goes on beneath their rough bark exteriors? They are hibernating. They haven't given up. They are conserving their nutrients. Shorter days/less sunlight signal this change. When the days get longer and provide more sunlight, it brings them out of this quiet time and they start pumping the nutrients throughout its limbs causing a lengthening of branches, buds and leaves. Seeds from trees have been working at breaking out and while some, like peaches, require an extended period of extreme cold to crack their shells, others are happily sending down roots into the rain-softened earth as they prepare to grow. I've heard it said of apple seeds that we can all count the seeds in an apple, but only God can count the apples in a seed. **Psalms 1:3 And he shall be like a tree planted by the rivers of water, that bringeth forth his fruit in his season;**

Butterflies: Here's a great example of how God changes things. He planned for this ugly worm to remove itself from the world for a time and not be concerned with what they will eat or do and in the right season, encourage them to come out of their shell through hard work and produce what we see as a beautiful butterfly. Sometimes we need to take a step back from the world and take a good long look at ourselves to see what needs changing. Our outlook? Our attitude? Our heart? Asking Him for help in these changes we too, may emerge a changed being. **2 Corinthians 5:17 - Therefore if any man [be] in Christ, [he is] a new creature: old things are passed away; behold, all things are become new.**

There are many verses in the Bible relating to our personal change and these are but a few. All of this just to say the only thing constant, is change.

Cream Cheese Spritz Cookies

Prep Time: 20 mins

Cook Time: 10 mins

Total Time: 30 mins

Yield: 4 1/2 dozen cookies

Ingredients

1 cup butter, at room temperature
1 (3 ounce) package cream cheese, at room temperature
½ cup white sugar
1 teaspoon vanilla extract
8 drops green food coloring, or as desired (Optional)
2 cups all-purpose flour

Directions

Preheat the oven to 375 degrees F (190 degrees C).

Cream butter and cream cheese together in a bowl using an electric mixer; add sugar and beat well. Mix in vanilla extract and food coloring. Slowly add flour and mix well to combine.

Fill a cookie press with dough and form cookies onto ungreased cookie sheets.

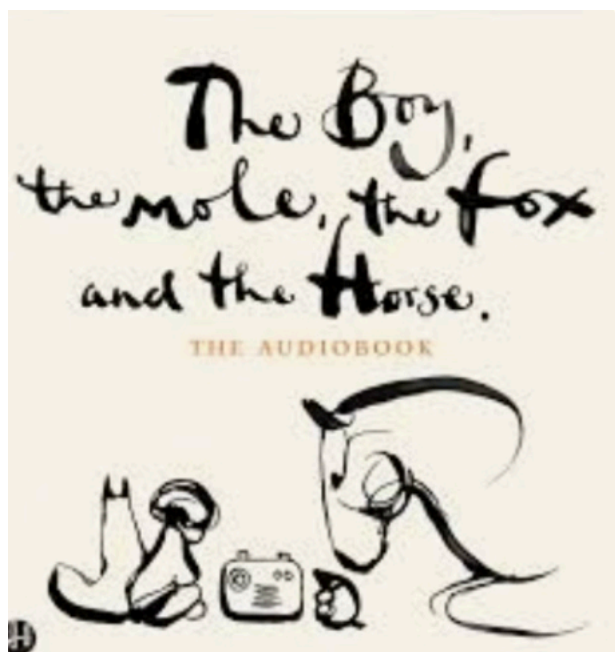

Bake in the preheated oven until edges are set, 8 to 10 minutes, making sure to remove at the first hint of browning.

Book Recommendation

If you have not read *The Boy, The Mole, The Fox and the Horse* by author Charlie Mackesy, I encourage you to check it out. A very quick read about the developing friendship among those in the title. They share thoughts and wisdom about life, love, hope and belonging. Thought provoking statements and poignant conversations about experiences everyone has had. I found that this book showed we are all connected in our struggles. I'll give you one example. Picture a small boy seated on a tree limb, next to him sits a mole. The mole asks, "What do you want to be when you grow up?" "Kind" answers the boy.

I would like to recommend you get the apps, "Hoopla" and "Libby". Both are free and they connect to your library card. A great way to get books while traveling without having to worry about getting it 1. renewed, and 2. returning it. They return automatically unless you renew so there's no late fees, either!

Happy reading!

Spring RV Safety Checks

Well it's that time of year again RVers! Spring has sprung! The time of year when we, who have hibernated over the course of a long winter, stick our heads outside and are bitten once again by the camping bug. But before we get out there and go RVing there are a few things we need to do to make sure we have a safe and fun time in our recreational vehicles.

Several RVers in those cold portions of the country have winterized their units and need to de-winterize them now. First, we need to remove any covers placed on our unit, be it placing cardboard over the refrigerator, water heater or furnace compartment openings or full coach covers over our units..

To see the rest of this article go to the following link.
